EDUCATION

- 2016-Present **Doctor of Philosophy, Electrical & Computer Engineering.**
Johns Hopkins University, USA. <https://www.clsp.jhu.edu>
Advisor: Dr. Shinji Watanabe. <https://www.clsp.jhu.edu/faculty/shinji-watanabe>
- 2016-2017 **Master of Science, Electrical & Computer Engineering, GPA: 3.7/4.**
Johns Hopkins University, USA. <https://engineering.jhu.edu/ece>
- 2012-2015 **Master of Science (by Research), Computer Science & Engineering.**
Indian Institute of Technology Madras, India. <http://www.cse.iitm.ac.in>
Advisor: Dr. Hema A. Murthy. <http://www.cse.iitm.ac.in/~hema>
- 2008-2012 **Bachelor of Technology, Information Technology.**
SSN College of Engineering, Anna University, India. <http://www.ssn.edu.in>

EXPERIENCE

- Fall 2017 - **Research Assistant, Johns Hopkins University,** Advisor: Prof. Shinji Watanabe.
Present 📍 Baltimore, MD, USA
- Fall 2017 - developed a novel single channel speech enhancement method [7], and contributed to make Kaldi CHiME-4 recipe state-of-art [8].
 - Spring 2018 - participated in CHiME-5 challenge as a member of the JHU-Hitachi team and contributed to the neural denoising module. Our team was placed in top 2.
 - Fall 2018 & Spring 2019 - worked on speech dereverberation in collaboration with Yahoo Japan [5]. Devised a technique to estimate speech enhancement hyper-parameters using ASR objectives [6].
 - Spring 2020 - Led speech separation efforts for the JHU team in CHiME-6 challenge and our team finished second in “diarization+ASR” track. Collaborated with SJTU on joint dereverberation & beamforming [3].
 - Fall 2020 - devised a paradigm called *directional ASR* that can train source localization with ASR objectives [1]. Contributed to speech enhancement functionality in ESPnet [2].
- Summer 2019 & Summer 2020 **NLP Research Intern, Tencent AI Lab,** Mentors: Dr. Chao Weng & Dr. Dong Yu.
📍 Bellevue, WA, USA
- Implemented a novel target speech extraction method with end-to-end speech recognition objectives [4].
 - Devised DNN approaches for multi-source localization and showed its effectiveness in cutting down ASR word error rates by about a factor of two.
- Summer 2018 **Research Intern, NTT Communication Sciences Lab,** Mentor: Dr. Marc Delcroix.
📍 Kyoto, Japan
- Experimented with speaker and environment adaptation techniques for end-to-end noise robust speech recognition.
- July 2015 - **Network Software Engineer, Intel.**
August 2016 📍 Bangalore, India
- IPv6 module for Axxia network accelerators and automation of performance benchmarks.

June 2012 - July 2015 **Project Associate**, *IIT Madras*, , Advisor: Prof. Hema A. Murthy.
📍 Chennai, India

- Member of the TTS consortium that developed a common framework for HMM based speech synthesis of 13 Indian languages.
- Participated in Blizzard Challenge - 2014 & 2015.
- Developed an automatic segmentation tool for the TTS consortium [9].

SKILLS

Programming Languages Python, C, C++, Java, C#, Shell, Perl, MATLAB

Toolkits Kaldi, ESPnet, HTK, HTS, Festival, Chainer, Pytorch

TEACHING

Fall '17 & '18 **Course Assistant**, *Digital Signal Processing*, Johns Hopkins University.
Spring '18 - '20 **Course Assistant**, *Information Extraction from Speech and Text*, Johns Hopkins University.

PROFESSIONAL SERVICES

- Reviewer - Interspeech 2015-2020, ICASSP 2017-2021, Speech Communication, APSIPA 2020.
- PC Member - Mid-Atlantic Student Colloquium on Speech, Language and Learning (MASC-SLL), 2020.
